- **Uplift the Vehicle Damage Quantification Profession to be a Professional Occupation.**
- **Conduct effective good Governance and control measures.**
- **Support the development of new Vehicle Damage Quantifiers.**
- **Establish the Vdq profession as a Public Norm**

WHY MUST I BELONG TO THE VDQGBSA?

The Certification and Endorsement of the Vehicle Damage Quantifier from the Professional Body will result in an acceptable industry and public norm. It is important for the public to have the comfort that their vehicle is in the care of a Professional Practitioner endorsed by a Legitimate Organisation

Certified Vehicle Damage Quantifiers (Assessors, Estimators, Moderators, or anybody involved in the quantification of motor vehicle damages) are the liaison and **Subject Matter Expert** between the customer and the business, and from a financial perspective a **critical resource** to ensure **financial stability** in the business, regarding **client retention and profitability**. This function requires that those involved in the quantification of damage to vehicles must have the competence (skill and knowledge) to ensure that the assessment and the quantification of the damages to the vehicle is accurate, comprehensive and of a high standard. Resulting in the vehicle being restored to manufacturer specifications.

JOIN THE TEAM THAT WILL MAKE A DIFFERENCE FOR FUTURE GENERATIONS!
